What are your main areas of interest in Oceanside City government?

Security, housing availability, development

What relevant experience or education can you bring to this advisory group?

I became a homeowner 3 years ago, at the age of 50, so I've rented all my life. I also came from a single-parent household that had trouble making ends meet. As such, I feel that while I have an obvious interest in the types of issues of importance to owners, I also have a lot of relevant experience with renter communities and needs, as well as lower-income family needs that would lend some balance.

What community organizations and associations do you belong to?

None yet. I'm working on that right now, in fact!

Are you serving or have you served on any Oceanside advisory groups? If yes, please indicate dates of service.

None yet. We've only been down here for a few years.

Are you related to, employed by, or affiliated in any way with any current member of this advisory group? If yes, please list member name(s).

No.

Meetings times are established by a majority of each advisory group (day and/or evening meetings, Monday-Friday). Are there any days and/or times you are not available for meetings?

No. I work from home, so unless I'm traveling (various trade shows), I'm pretty flexible.

What additional comments do you have to assist in evaluating your qualifications for appointment to an advisory group?

I'd like to make a difference.

It is the policy of the City of Oceanside that no qualified disabled person will be denied the opportunity to participate as a member of any advisory commission. Appropriate arrangements will be made to accommodate individuals as needed.

I have been an Oceanside resident for 30 years. New applicant Request reappointment

What are your main areas of interest in Oceanside City government?

I have a strong interest in making sure Oceanside grows in a way that ensures we all still want to live here. I understand that growth is necessary and inevitable. We have learned a lot over the years about how traffic really moves, how clear identity supports commercial success on major streets, the importance of trees, neighborhood concerns, and what makes Oceanside a destination for tourists. I want to make sure the latest understanding is applied to planning problems and new development.

What relevant experience or education can you bring to this advisory group?

As an Oceanside Planning Commissioner for 9 years, I often brought up new ways of looking at problems. Most of the issues I addressed are now standard practice. For example, I asked which way homes faced in subdivisions. This is now a feature for those wishing to install solar panels. Bioswales are now standard practice. I am a degreed Mechanical Engineer with 20 years in high tech. I have demonstrated an interest and skill in architecture and landscape design with 3 local house remodels.

What community organizations and associations do you belong to?

Currently, I am President of Friends of El Corazon, Board Member of Buena Vista Audubon, and Vice President of the Council of King of Kings Lutheran Church. I have been on the Main Street Design Committee.

I created a Native Plant Garden Walk in the Seaside Neighborhood that is now in the 20th year. I am past President of OCNA. I also created and supported 7 school gardens (pre shutdown). My husband and I are members and supporters of many local groups such as OMA, CSM, OHS, WRC

Are you serving or have you served on any Oceanside advisory groups? If yes, please indicate dates of service.

Planning Commission - 9 years 1990's - 2000's

Downtown Advisory Commission - one term around 2010

El Corazon Oversight Committee 2005-2009

El Corazon Specific Plan Sub-Committee 2005-2009

OUSD Boundary Committee - great way to learn about neighborhoods/density

Are you related to, employed by, or affiliated in any way with any current member of this advisory group? If yes, please list member name(s).

no

Meetings times are established by a majority of each advisory group (day and/or evening meetings, Monday-Friday). Are there any days and/or times you are not available for meetings?

I am available for all Planning Commission meetings and can be available if needed other times.

What additional comments do you have to assist in evaluating your qualifications for appointment to an advisory group?

Planning issues are getting tougher and we cannot risk old failed solutions when better ideas are available. I have demonstrated a commitment to finding cost effective and innovative solutions to problems on El Corazon Park and in my neighborhood. I have worked closely with many developers over the years. Please contact Colton Sudberry or Lightfoot Planning Group to ask about my ability. I have no interest in running for office and would rather work on solving problems as a member of the PC.

It is the policy of the City of Oceanside that no qualified disabled person will be denied the opportunity to participate as a member of any advisory commission. Appropriate arrangements will be made to accommodate individuals as needed.

I have been an Oceanside resident for 5 years. New applicant Request reappointment

What are your main areas of interest in Oceanside City government?

I'm interested in helping to keep the city growing and thriving. I believe Oceanside is prime for continued economic growth and is still one of the most affordable beach towns in San Diego county. I'd love to be part of the discussions for what the future holds.

What relevant experience or education can you bring to this advisory group?

Professionally I have vast experience in Sales, Marketing, and Product Management primarily in the technology space. This year will mark my first year as an entrepreneur, starting my own new business- Blue Kangaroo Packoutz, which I intend to see thrive and succeed massively in Oceanside and all over north county. My perspectives will be both from the corporate world and will now include my own business owner challenges and opportunities.

What community organizations and associations do you belong to?

I am a member of the Junior League of San Diego and am currently serving on the Board and Executive Management Team as the Executive Vice President. This experience has also given me tremendous perspective on the ways that a nonprofit is managed and grows or sustains. I have been a member for 10 years and have seen us go through COVID, watching our membership count shrink and the membership as a whole change drastically. This experience has also prepared me for a position on the advisory group.

Are you serving or have you served on any Oceanside advisory groups? If yes, please indicate dates of service.

No.

Are you related to, employed by, or affiliated in any way with any current member of this advisory group? If yes, please list member name(s).

No.

Meetings times are established by a majority of each advisory group (day and/or evening meetings, Monday-Friday). Are there any days and/or times you are not available for meetings?

Typically Tuesday evenings I am unavailable, as this is commonly a Junior League night.

What additional comments do you have to assist in evaluating your qualifications for appointment to an advisory group?

I am a young professional, married woman who intends to see Oceanside as her forever home. My husband and I own a boat and we frequently take it out of Oceanside Harbor for fishing. We are avid pier walkers, so you'll often find us walking the Oceanside pier in the evenings and on weekends to take a breath of fresh air and be around my favorite place in the city, which is the pier. I love this community and want to see it continue to grow and be fiscally responsible in the ways that are needed.

It is the policy of the City of Oceanside that no qualified disabled person will be denied the opportunity to participate as a member of any advisory commission. Appropriate arrangements will be made to accommodate individuals as needed.

DRIVER'S LICENSE: [REDACTED]

I have been an Oceanside resident for 9 years. New applicant Request reappointment

What are your main areas of interest in Oceanside City government?

(1) As a wildlife biologist, my main interest lies in balancing the housing needs of the people with the housing needs of our native wildlife. I am interested in smart and strategic planning that best conserves our natural resources and adheres to regional conservation plans. In addition to their intrinsic value, our natural resources provide immense value to both residents and tourists and should be protected and augmented.

Due to space limit, continued in sections below

What relevant experience or education can you bring to this advisory group?

From working in the field of wildlife biology for the past 15 years, I have a strong knowledge of our local natural resources. I have a strong knowledge of CEQA from taking multiple AEP workshops and through my participation as a citizen of Oceanside in the EIR process. I understand the needs of our sensitive wildlife and plant species, especially the endangered Least Bell's Vireo which I researched in Oceanside through a role at USGS. I have a B.A. in Business Economics from UCLA.

What community organizations and associations do you belong to?

Buena Vista Audubon
San Diego Field Biologists
The Wildlife Society
Association of Environmental Professionals
Parent-Teacher Association (PTA)
~~Local grassroots groups including: Let Oceanside Vote, Guardians of Guajome~~

Are you serving or have you served on any Oceanside advisory groups? If yes, please indicate dates of service.

No

*Interests continued: (2) I am also very passionate about the public transit aspect of "smart growth." Building homes near public transit is not just smart; it's essential. Smart and strategic planning should seek to minimize traffic congestion while reducing air pollution and greenhouse gas emissions, all of which can be achieved through public transit.

Are you related to, employed by, or affiliated in any way with any current member of this advisory group? If yes, please list member name(s).

No

*Interests continued: (3) Citizen engagement is also one of my top concerns. Most residents are disconnected from their local government and don't realize the impact they could have on shaping the future of their city. Providing education on how to get involved with city decision-making, through workshops and other outreach, would be a great step toward increased engagement. ~~Most people feel helpless and it shouldn't be that way.~~

Meetings times are established by a majority of each advisory group (day and/or evening meetings, Monday-Friday). Are there any days and/or times you are not available for meetings?

No

What additional comments do you have to assist in evaluating your qualifications for appointment to an advisory group?

I offer an expertise that is lacking on the Planning Commission. We need more people with biological expertise in decision-making roles in all levels of government. I am extremely passionate about our Oceanside government and thrive on being an engaged citizen. I would love the opportunity to take my passion to the next level by serving on the Planning Commission.
